[Introducing House Plans with 3D Printing](#) - Want more than just a virtual view of a house plan? Now builders can purchase a [3D printer ready house plan](#) ONLY at The Plan Collection. [-more-](#)

[A Home for a Growing Family](#) - This 1 story house plan has 6 bedrooms and 4 baths with ceiling height(s) of 9' feet. Above grade there are 2643 square feet plus additional square footage with the basement that gives a total of 4365 with a finished basement. Plus there is a 2 car garage. [-more-](#)

[Top Cottage: FDR's Mountain Retreat](#) Simple, elegant and functional, FDR's cottage, atop the hills of New York's Dutchess County. Not too many people know that Franklin Delano Roosevelt, the 32nd President of the United States, was an architect. [-more-](#)

**DESIGN NEWS:** [An Environmentally Friendly Home](#) has some major green advantages and opportunities. This three story home is not only less expensive to build, but it also disturbs less ground. Lots of windows and outdoor decks allow natural cooling and ventilation. [-more-](#)

[High Ceilings are Trending](#) - One of the ten most important items in a home today is a 9-foot ceiling or higher on the first floor according to the National Association of Home Builders' survey of builders. These house plans with high ceilings can offer you a home more livability even in a small home or unit if well planned. [-more-](#)
